

**12 October April 2020**

**Singapore Covid-19 Update and Return to Work Operating Practices**

**Dear Valued Clients & Capital Partners,**

With the reduction in new cases of COVID-19 and increased measure of controls proving effective, the Singapore government announced that more people would be allowed to return to their respective workplace.

Safe management measures are to remain in place and employers are encouraged to implement measures such as flexible working hours and staggered reporting times.

All of these requirements went into effect from September 28, 2020, for general workplace settings.

Please stay healthy and safe.

Sincerely,

**The Team at Seine Pacific Capital Partners**
